

Lampe & Schwartz: Tobias Braun becomes new member of the management team

Bremen, 18th August 2020. With effect from 1st November 2020, Tobias Braun (43) joins the management team of Lampe & Schwartz and will together with Christoph Enge be leading Lampe & Schwartz Marine Underwriting, the Marine MGA of the Group. Jointly, they will drive L&S's further expansion in the international marine and logistics insurance markets and enhance innovative developments.

"I am thrilled about my new role and this fascinating opportunity to innovatively accompany the current changes in our industry as part of this long-established company. In particular, I look forward to working with my new colleagues and for our business partners, who entrust their business to the Lampe & Schwartz Group", says Tobias Braun.

"We are very happy to get Tobias Braun onboard, as he is not only a manager with many years of international experience in the maritime industry and transport insurance but has also managed MGAs with a high level of competence and innovative strength", says Christoph Enge.

Tobias Braun, working for more than 20 years in shipping and the international insurance world, started his career with trainings at John T. Essberger and Deutsche Afrika Linien followed by studies of economics and general management, as well as philosophy and cultural studies.

After working for the insurer Hiscox in Hamburg and London, he joined Hanseatic Underwriters, a specialist marine liability MGA based in Hamburg. In his capacity as Managing Director, he accompanied the sale of Hanseatic P&I and Zeller Associates Group to Thomas Miller Group and became Chief Executive of the German Thomas Miller businesses.

Lampe & Schwartz Group

Lampe & Schwartz KG, founded in 1858, more than 250 employees, is with its MGA one of the largest European marine insurance underwriters. With underwriting authority for more than 20 insurance companies and a portfolio in international marine and cargo insurance, the company also pursues a strongly risk-management driven course with innovative products and digital structures.
